

Origami Jumping Frog

What you need:

- Coloured Paper (preferably Green)
- Scissors and ruler if your paper is not a square shape

-
1. Start with a square peice of paper. If your paper is not square then make it into a square by measuring the shortest side, and then cutting the longest side to the same length.

-
2. Fold the paper 2 times from one side to the other, forming a cross shape.

-
3. fold each of the outer corner in, to meet the centre corner

-
4. Turn the paper so its diamond shaped. Then fold the two outside corners in to meet at the centre line so it looks like a kite.

-
5. Now fold the bottom triangle of the kite upwards.

-
6. Now fold the two outside corners in to meet in the middle.

-
7. fold the bottom upwards.

8. fold half of it back down.

9. Fold fold the top corner down.

10. Flip it over and draw on some eyes. You can also draw or stick other decorations on such as spots. To make the frog jump, push down on his back and quickly let go.
